

NOVA SEAS

Bridging Oceans, Building Partnerships

www.novaseas.com

Company History

NOVA SEAS was founded in Hamburg, Germany, in **2019** with a vision to provide professional & reliable shipbroking services. As the company grew, it expanded its presence globally, opening a Dubai office in **2022** to cater to core clients and tap into the rapidly growing Middle Eastern market. That same year, NOVA SEAS launched a dedicated bunkering desk, adding further value and service for its customers. Recognizing the importance of the Asian market, the company also opened a Shanghai office in **2022**, solidifying its reach in the region. In **2024**, NOVA SEAS further expanded its portfolio with the establishment of SPX for spare part procurement and ship finance, marking another milestone in the company's continued growth and diversification.

NOVA SEAS

Our Mission & Vision

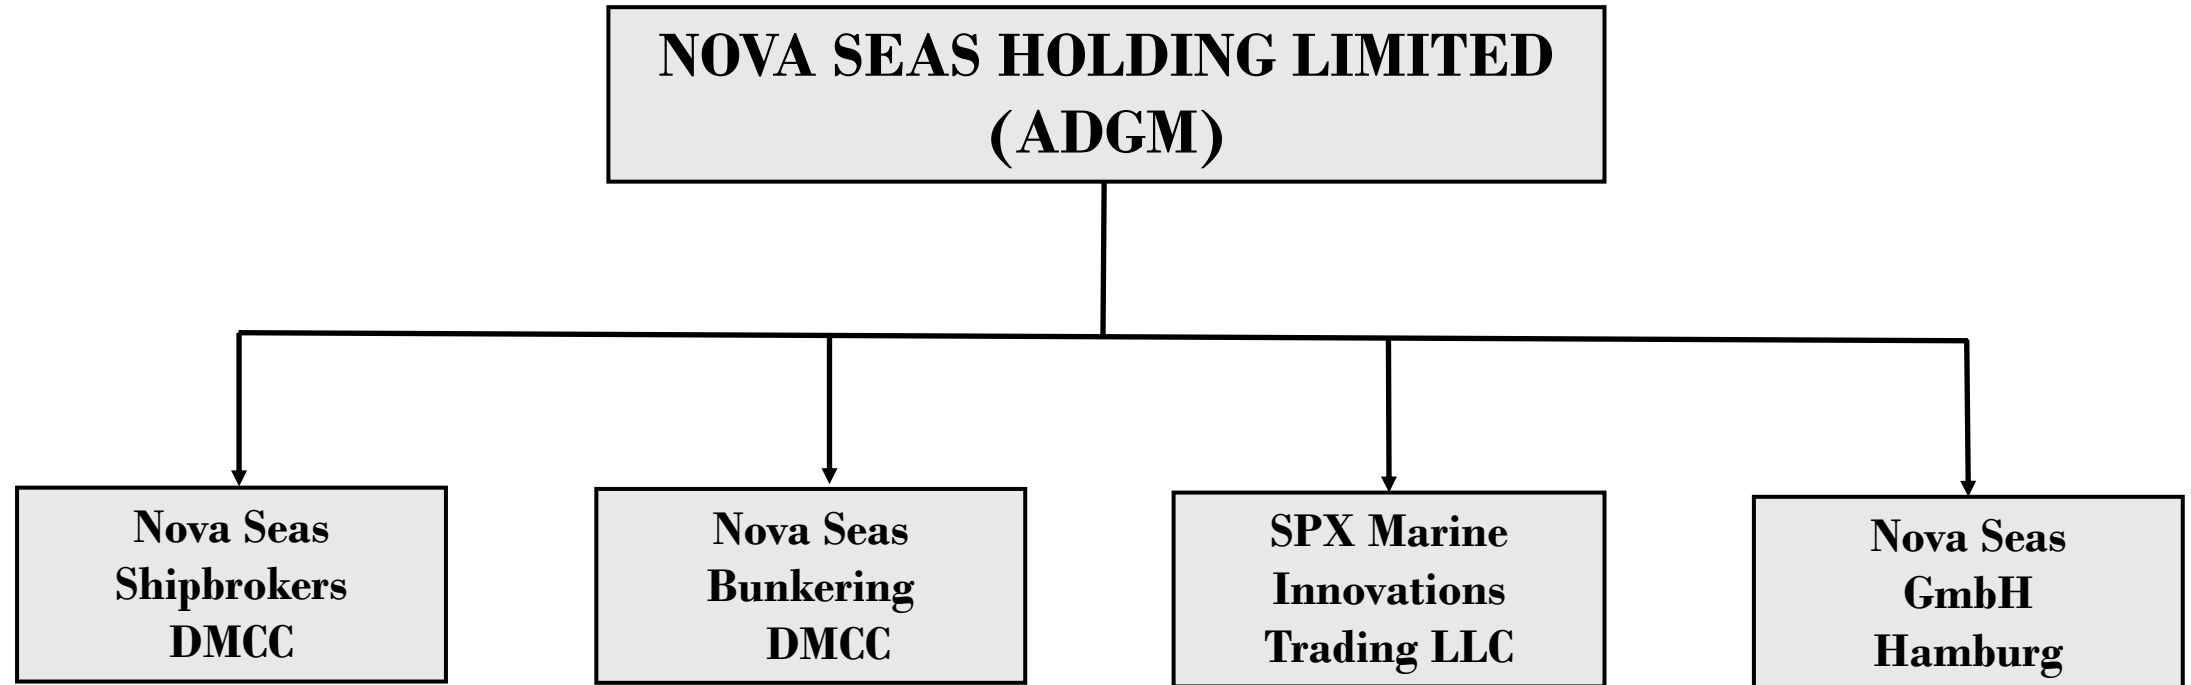

Our goal is to build lasting relationships by offering customized, efficient, and sustainable solutions that cater to the unique needs of each client. With a strong global presence and deep market knowledge, we ensure that our services are strategically aligned with the maritime industry, providing tailored solutions that meet the evolving demands of global shipping.

We strive to be the trusted partner of choice for our clients; known for reliability, excellence, and a commitment to delivering value that meets both current and future needs.

NOVA SEAS

Structure Overview

Our Services

Newbuilding Sales & Purchase

Leveraging our extensive network of contacts, our Sale & Purchase brokers in Dubai, Hamburg, and Shanghai identify and secure the best opportunities in second-hand sales, newbuilding and demolition.

Tanker Chartering

Our Tanker desk handles chartering enquiries for spot voyages and time charter for the carriage of petrochemicals and refined petroleum products with a strong hold on the Eastern markets.

Bunker Trading

Mobilizing strong global connections and extensive trading expertise, our dedicated bunker desk supplies fuel to clients worldwide at the most competitive market prices.

Procurement SPX

Built a user-centric maritime procurement and service platform. Starting with spare parts our company will expand into additive manufacturing and services, to address vessel maintenance and future industry shifts.

Ship Finance

Connecting our network of fleet owners with institutions that are actively financing and refinancing existing fleets to allow them to use debt to grow their business.
